Aleksandr Garin

Front End Developer

PROFILE

Highly motivated professional with a proven work ethic and a strong ability to work independently or as part of a team. Passionate about software engineering and committed to continuous skill development in this field. Recognised for high achievement and delivery of results, and eager to contribute towards team goals. In 2020, I relocated from Russia to the UK to escape religious persecution. This challenging move necessitated leaving behind a successful 10-year business working with a variety of private and corporate clients. Since being granted permanent residency in the UK, I have retrained in software engineering and am now eager to build a successful career in this new field.

EDUCATION

CAVC

PREVIOUS WORK HISTORY

Jan 2023 - Present

I have embarked on a journey of self-learning. My journey began with the Java language, which subsequently led to my decision to become a full-stack developer. I utilised resources on freeCodeCamp and completed the front-end component of the program.

In an effort to further enhance my skills and secure employment, I enrolled in the Coding Academy at CAVC College. Presently, I am actively studying towards a Level 3 Software Development qualification.

Jul 2022 - Jan 2023

Professional Window Cleaner & Landscaper, South Wales Groundcare LTD, Cardiff

Took on commercial window cleaning and landscape gardening projects for reputable clients like Stratstone Jaguar, St David's Hotel, Castle Coch, and Caerphilly Castle. Demonstrated strong attention to detail and a solid work ethic in maintaining grounds and ensuring cleanliness. Proved adept at using various tools and equipment, including ladders, poles, aerial lift equipment, and suspended platforms.

Jun 2010 - Dec 2020

Self-employed, Sochi, Russia

Managed and executed a wide range of renovation projects for both domestic and commercial properties, including high-value and high net-worth homes. Demonstrated strong problem-solving skills and attention to detail in all aspects of work. Responsible for project costings, material acquisition, equipment purchasing and usage, and accounting. Gained valuable experience in project management and teamwork in various settings.
